SEASONAL TRENDS

January 2025

Delicious things are on their way this year! And, as usual, we present you with a sneak preview for the coming season.

With sourdough, please.

Our customers increasingly think of sourdough, which is why it's the fundamental ingredient of breads as special as the Vintage Baguette Saint Honoré or the three new products in the Gran Reserva family, and check this out, two of them come pre-baked to make your life easier! We've even incorporated sourdough into our Croissant Sophie with Sourdough.

Snacks that invite you to travel.

Not so much to other countries, as to other times, like the Chicken Mushroom Puff Pastry, which transports us back to our grandmothers' kitchen, or the Ham & Cheese Panier, which reminds us of the *mixtos* of our teenage years, but in an improved version.

A crunch in every bite!

The *crunch* is consolidating its position as the preferred texture for all types of consumers, which is why we offer everything from crunchy sweet products like the Lion specialties, which crunch so much they roar, or the White Chocolate Bar Croissant, which crunches even on the inside, to breads such as the Gran Reserva Multiseeds baguette, whose crispy crust is a plus.

Happy winter season!
