100 pcs. / 1.8 oz * 11.25 lbs. Net Wt

1. Remove product from freezer. Allow product to thaw completely, to room temperature, before packaging or serving. For best results, set up on pans and thaw on covered racks. (do not refrigerate as this will dry out product)
2. Optional – Rolls may be warmed if desired. Place in a pre-heated oven at 375° F. bake for approximately 2 - 4 minutes to a light golden color. Over-browning will reduce sweetness.
