# Tips & Tricks

# Can I thaw frozen bread dough in the oven?

Select a bowl/baking pan that can accommodate the dough's risen size, and coat it with your preferred ingredient so it doesn't stick. Cover the dough in heat-safe plastic wrap. Place the dough in the oven at a temperature of 100°F so it thaws but doesn't kill the yeast.

# How do you speed up the thawing process?

With boiling water:

Place a glass baking dish on the bottom rack of the oven and fill it with boiling water. Put your dough in a covered glass bowl on the middle or top rack and shut the door.

# Can you freeze bread dough after the second rise?

Yes, it is possible to freeze pizza/bread dough that has already risen once.

\*Yeast remains relatively unaffected if frozen (you can also freeze blocks of fresh yeast to use at a later date).

The texture of the bread will also be unaffected.

Bread always tastes better when it's freshly baked. If you don't have time to bake every day, frozen bread dough is your best option. Right from the freezer, frozen bread dough lets you have warm, perfect loaves ready when needed.

It's great to use for sandwiches, bread bowls, breakfast toasts, casseroles, cinnamon rolls, crostinis, bread baskets, and more.
